

Wanderson Marques Junior

With 6 years of experience in full-stack engineering, I am passionate about solving difficult problems and using creativity to develop new solutions. My experience includes working with the MERN stack, which involves React.js, Node.js, MongoDB, and Express.js. I also have experience with Docker, Kubernetes, and React Native. I excel in collaborative team environments, delivering high-quality products, and adapting to changing requirements. As a mentor I promote growth and teamwork.

| EDUCATION

FATEC Itapetininga Prof. Antonio Belizandro Barbosa Rezende (2017 - 2020)

Technologist in Systems Analysis and Development

Federal Institute of Education, Science and Technology of São Paulo (2015 - 2017)

Technician in Computer Maintenance and Support

| WORKING EXPERIENCES

Cobasi (2022 - 2024)

I Sênior Back-End Engineer

- Developed and maintained scalable and high-performance web applications using the MERN stack.
- Implemented RESTful APIs and integrated with various external services.
- Identified and resolved performance bottlenecks to ensure the efficiency of applications.
- Collaborated with multidisciplinary teams to define requirements, plan sprints, and ensure the delivery of high-quality projects.
- Developed intelligent chatbots using Dialogflow, enhancing user interaction and automating customer service processes.
- Created and integrated custom Alexa skills to expand user engagement through voice-controlled applications.

Technology stack: MERN stack, Typescript, Docker, Redis, Dialogflow, AWS and Next.js.

Pixter (2020 - 2023)

I Mid-level Developer - MERN stack

- Progressed from Junior to Mid-level Developer, gaining extensive experience in various projects utilizing the MERN stack.
- Assisted in the development of web applications and collaborated with senior developers to understand and implement best coding practices.
- Took on more complex development tasks and contributed to the design and architecture of new features.
- Integrated RESTful APIs and enhanced application functionalities.
- Mentored junior developers and provided guidance on project tasks and coding standards.

Technology stack: MERN stack, Typescript and Next.js.

Sudeste Online (2019 - 2020)

I Intern - Web Development

- Gained hands-on experience in web development, focusing on React for frontend development and PHP for backend development.
- Contributed to the development and maintenance of web applications, implementing features and fixing bugs.
- Assisted in the integration of APIs and worked on improving the user interface and user experience.
- Participated in training sessions and workshops to enhance understanding of web technologies and best practices.

Technology stack: React.js, PHP and Typescript.

| SKILLS

MERN stack, React Native, MySQL, PostgreSQL, Redis, Systems Architecture, AWS, Azure, Docker, Kubernetes, GitLab CI/CD, Webpack, Git and GitFlow, Linux environment

| LANGUAGES

English (Cambridge C1 Equivalent)
